SPECIAL FEATURE of OSHA Safety Lock Tag Padlock :

- High quality isolation lock as per isolation guidelines to meet OSHA requirement
- Key retained in unlock condition that means key would not come out .
- Key can be removed in only lock position.
- It is suitable for both low and high temperature.
- Particular key for particular lock.
- No key mixing with any other lock.
- Key mechanism- differ key , alike key , master key available on demand. The new management key technology – 6/10 level management.
- Each lock with specific numbering on body of lock and key.
- Special fluorescent color available on volume basis.
- Standard shackle, long shackle – Metal/ Dielectric shackle available
- Electric current resist from shackle to key, in case of dielectric shackle .
- Main advantage of nylon shackle , in case of emergency, shackle can be cut easily .

DRAWBACK OF ABS JACKETED METAL PADLOCK:

- KEY NOT RETAINED in this Lock—not recommended to any one for full proof isolation work for safety .
- Possibility for key interchanging is also on higher side.
- That lock was metal body and cover with ABS clipping with spring/ ball cylinder which not hold key in unlock Position.
- Non resistance to electric current, so not recommendable for the high voltage area.
- No specific key arrangement for locking mechanism.

WE ALWAYS RECOMMEND OSHA SAFETY LOCK TAG PADLOCK INSPITE OF ABS JACKETED PADLOCK

Notes:

- Lock & Tag should be used with all loto products.
- For group locking on particular energy hasp should be used.
- Group lockout box should be used for group lockout tagout.
- Scissor Cable or Round cable lockout can be used to lock multiple hazardous energies instead putting individual locks & tags.
