Pin type circuit breaker lockout device is used to provide locking to the miniature circuit breaker that is with appropriate small holes, squeeze from the back to open the jaws of the lockout device and then fix or lock it properly in the small hole of the MCB. Can be used for one, two, three or four pole circuit breaker, required no tools for installation and available as pin in, pin out and pin wide type.

PIN IN CIRCUIT BREAKER LOCKOUT KRM-K-PIN IN CBL

- **Material** – Nylon, ABS/PP Metallic PIN and Spring
- KRM Pin In Circuit Breaker Lockout is applicable on the circuit breakers for energy isolation, always used when energy source is in switched OFF condition.
- The device can be installed directly without the assistance of any extra tool, having high tensile strength and is suitable for single, double, triple and four pole circuit breaker.
- Length of Pin can be expanded up to 8.5 mm on pressing the back side with the help of thumb.
- **Color** – Green Black, Red Black, Yellow Black, Blue Black standard options are available or we can customized as per the quantity required.
- **Dimension** – Height 43 mm, Width 24 mm Depth 24 mm
- **Weight** – 7 gm

Combo for Pin Type Circuit Breaker Lockout includes Pin In Circuit Breaker Lockout, Pin Out Circuit Breaker Lockout, Pin Out Wide Circuit Breaker Lockout and Tie Bar / Blocker Circuit Breaker Lockout.
COMBO – PIN TYPE CIRCUIT BREAKER LOCKOUT – KRM-K-MCBL-C-3

Combo for Pin Type Circuit Breaker Lockout includes Pin In Circuit Breaker Lockout, Pin Out Circuit Breaker Lockout and Pin Out Wide Circuit Breaker Lockout.
Pin type circuit breaker lockout device is used to provide locking to the miniature circuit breaker that is with appropriate small holes, squeeze from the back to open the jaws of the lockout device and then fix or lock it properly in the hole of the MCB. Can be used for single pole circuit breaker, required no tools for installation.

- **Material** – Nylon, ABS, Metallic PIN and Spring
- KRM MCB Pin Lockout is applicable on the circuit breakers for energy isolation, always used when energy source is in switched OFF condition.
- The device with wire clips will move into position so as to adjust behind the toggle of the circuit breaker. As the device will fit on to the circuit then can lock using the padlock.
- The lockout can take padlock with a hole dia 8mm
- Suitable for small sized circuit breaker.
- **Color** – Yellow, Red or as per the quantity required.
- **Weight** – 7 gm

PIN CIRCUIT BREAKER LOCKOUT - GREEN (SET OF 3) – KRM-K-PCBL-G3

- Pin Type Circuit Breaker Lockout device is used to provide locking to the miniature circuit breaker that is with appropriate small holes, squeeze from the back to open the jaws of the lockout device and then fix or lock it properly in the small hole of the MCB. Can be used for two, three or four pole circuit breaker, required no tools for installation and available as Pin In, pin Out and wide type.

- **Material** - Nylon with metallic PIN.

- KRM MCB Lockout molded pin type is suitable for single, double, triple and four pole circuit breaker, it is easy to use and offer a flawless lockout solution, with the pin having high tensile steel grade strength.

- **Color** - Green, Blue, Yellow, Red or any color as per volume.

- **Dimension** - Outer size - 63.3 mm length, 23.3 mm width, 14 mm.

- **Weight** - 45 gm.

For more details on LOTO and Safety Products visit our website – www.krmloto.com

Notes:

• Lock & Tag should be used with all loto products.

• For group locking on particular energy hasp should be used.

• Group lockout box should be used for group lockout tagout.

• Scissor Cable or Round cable lockout can be used to lock multiple hazardous energies instead putting individual locks & tags.
