KRM LOTO DI ELECTRIC HASP – DOUBLE JAW WITH 8 HOLES

- KRM LOTO Dual Jaw Hasp ensures each worker's safety as the energy cannot be restored until the work is finished utilized to lock electrical devices like plug and cord which is also suitable for keeping equipment inoperative while repairs or adjustments are undertaken.

- **Material** – ABS

- **Size** – Overall length 140 mm, Hasp having two different jaw diameter of 28 mm and 40 mm at both ends with eight small holes for locking having 9 mm of diameter.

- **Weight** – 25 gm

**KRM LOTO ECONOMY DI - ELECTRIC LABELED LOCKOUT HASP**

- **Material** – ABS insulated properties
- Two part joined with aluminum rivet
- Easy to carry as it is lighter in weight, it can resolve the purpose of multiple isolation.
- Minimum 6 holes for locking purpose
- Provision of space for one/two more extra hole on it as require
- No need to put extra information tag on it
- It can be useful for lockout the electrical as well as mechanical installed devices hence it is a versatile device in nature and then Tagout by an authorized person.
- Standard text matter on it as shown in picture, but can be customized on volume basis or can provide without printed text
- **Dimension** - height 147 mm, width of upper part is 10 mm and lower width part is 13 mm, internal Hole diameter – 8 mm
- **Weight** – 70 gm
- **Color** – Standard color Red. Can make any color as per the quantity required. white Or any color make as per the required quantity

Notes:

• Lock & Tag should be used with all loto products

• For group locking on particular energy hasp should be used.

• Group lockout box should be used for group lockout tagout.

• Scissor Cable or Round cable lockout can be used to lock multiple hazardous energies instead putting individual locks & tags.

• Every equipment/machine should have provision for energy isolation

• Placards for the isolation (types of energies) of machine/equipment should be hanged/pasted near respective machine/equipment
