Wheel Lockout (KRM-K-MSLD-4)

- **STRONG and DURABLE:** The wheel clamp lock body is made of a high-strength steel plate. Crescent-shaped lock cylinder, compared to another general lock cylinder, is an anti-theft performance that is stronger! The surface of the clamp is soft coated, which will not damage your car wheel.
- **- HIGHLY VISIBLE and SAFE:** The bright yellow and red color of the car boot is a fine choice for maximum visibility both day and night. The trailer wheel lock greatly reduces the possibility of being targeted by thieves and protects your car security effectively.
- **- WORKS with MOST VEHICLE:** Universal wheel locks can be adjusted to fit 7 to 11-inch width tires for 2 & 4-wheeler etc.
- **- EASY to INSTALL:** Open the tire lock and install it on your vehicle tire, adjust it to the appropriate hole, and push the lock cylinder. Unlock and remove the device also quickly.
- Each wheel lock set includes 1 Lock and 2 keys.
